2018

Amber Morczek, PhD

Dr. Amber Morczek earned her Ph.D. in Criminal Justice and Criminology from Washington State University in 2018. Dr. Morczek's teaching and research interests involve studying the connection between cultural norms, technology, and manifestations of violence toward women. Her research has been published in the *Journal of Interpersonal Violence*, *Family & Intimate Partner Violence Quarterly*, the *International Journal of Cyber Criminology, Sexuality & Culture*, *The Criminologist*, and the *Sexual Assault Report*. Dr. Morczek has delivered presentations to the several state and federal agencies: the Utah Coalition Against Sexual Assault, the New York State Coalition Against Sexual Assault, the Illinois Coalition Against Sexual Assault, etc. Dr. Morczek has received awards, including the 2016 Washington State University Martin Luther King Jr. Distinguished Service Award and the 2018 State University of New York College at Buffalo Young Alumnus Achievement Award.

Dr. Edna Erez is Professor of Criminology, Law, and Justice at the University of Illinois at Chicago. She has law degree (LL.B) from the Hebrew University of Jerusalem, and MA and Ph.D. in Criminology/Sociology from the University of Pennsylvania. Her areas of research include victims in justice proceedings, violence against women including immigrant women, and terrorism and transnational crimes. Her publication record includes over 100 scholarly articles, book chapters, and research reports. Professor Erez serves as associate editor of *Victims and Violence*, co-editor of *International Review of Victimology*, and co-editor of the *Oxford University Research Encyclopedia of comparative criminology*. Her two most recent National Institute of Justice funded research projects addressed the use of GPS technologies in domestic violence cases, and the convergence of transnational crimes.

Edna Erez, PhD

Dr. Kristina Box

Dr. Kristina Box was named Indiana State Health Commissioner by Governor Eric J. Holcomb on September 18, 2017. She brings to the role a passion for improving the health of Hoosiers, beginning before birth. Dr. Box has been a practicing obstetrician and gynecologist in Indianapolis for 30 years, starting her career at Community Hospitals of Indianapolis in 1987 as a private practitioner with Clearvista Women's Care. Since 2015, she has served as the Physician Lead for Community Health Network's Women's Service Line. In this role, she built the first multi-disciplinary women's center in the Community Health Network, developed critical partnerships with area children's hospitals to improve care and decrease health care costs, and led efforts to ensure that low-income women receive the important free health screenings they need. Dr. Box has been involved in ongoing surgical medical missions to Haiti and Bolivia for more than a decade.

Track 1

The Educational Technology, Communication, and Social Justice

Presenter: Corinne Renguette

The ever-changing landscape of technology requires us all to monitor, assess, and use innovative technology regularly. However, our daily time constraints do not always allow sufficient opportunities for learning the new technologies or skills needed. The presenter will discuss her research, use, and assessment of technology, technological literacy development, and approaches for transferring this knowledge to areas related to education and social justice. Through small group collaboration, this workshop will allow participants to consider efficient ways to assess and learn new technologies that can be used to communicate with others in areas related to social justice.

Track 2

#Guilty: Identifying, Preserving, and Presenting Digital Evidence

Presenter: Jane Anderson

The way we interact with technology continues to increase and evolve as we rely on computers, smart phones, and other digital devices to complete many of our daily activities. This presentation will demonstrate how cyber investigations can be used to reveal evidence of criminal activity, as well as evidence of the power and control dynamics of an abusive intimate partner relationship. The presenter will discuss theories of admission, rules of evidence, and case law will be discussed using “real life” examples to demonstrate how to properly authenticate and introduce digital evidence in civil and criminal proceedings.

Track 3

We are Connected: Using Technology Improve Practice, Connect to the Public, and Influence Policy.

Presenter: Stephanie Quiring

This interactive workshop discusses several of the key roles technology plays in innovative service provision. Ms. Quiring will outline strategies and tangible tools currently available to you and your organization to more meaningfully serve people, increase your organization’s visibility, and influence others. Participants will have an opportunity to apply this information to their practice during the workshop.

Helping Latino women reach their full potential

Track 1

Internet Pornography: Normalizing the Relationship between Violence and Sex

Presenter: Amber Morczeek

This presentation will 1) describe current trends in mainstream Internet pornography, 2) deconstruct the latest research on the impact of pornography on attitudes and behaviors, and 3) address how to develop and sustain conversations about how pornography impacts our collective views on sex, violence, and sexual violence.

Track 2

The Future of Social Work in the Era of Technology

Presenter: Samantha Wolfe-Taylor

This workshop will provide practitioners with a foundational understanding of e-social work practice, telebehavioral health services, and the field of social work's need to harness technology for social good. Participants will be able to identify their role in creating a future in the field of social work that embraces the technology available to them to better meet the needs of their clients.

Track 3

Educating, Helping and Serving Victims with Augmented Reality

Presenter: Augusto Pinaud

Augmented Reality is an interactive experience of a real-world environment where objects are "augmented" by a computer, allowing users to interact with objects, links and more. Are you using Augmented Reality to increase your reach and improve the possibilities of training of victims of abuse? Do you know that you can offer a more effective and evergreen possibility to your materials, brochures and more important to your helping capabilities using Augmented Reality. Are your resources available to the people that need it on their phone and on ways that they can't be tracked? Come and join us for the opportunity to learn how to Educate, Help and serve victims with Augmented Reality as a technology.
